

**UNTIL NOW,** you had to make a choice with your fleet's aircraft coating: designate more time to the application stage, or sacrifice appearance.

**NOT ANYMORE.**

With a 6- to 8-hour cure time and simple 2:1:1 mix ratio, Jet Glo EXPRESS™ Aerospace Coatings get your aircraft out of the paint booth quickly and easily, while giving you the high-gloss, beautiful appearance for which Jet Glo® is known.

Nearly three years of development went into Jet Glo EXPRESS, and the results are outstanding. OEMs and airlines are raving about the fast cure time and easy mixing and application, as well as the repairable/buffable urethane finish.

Take the Express Route.™ **JETGLO EXPRESS**
