

# Sherwin-Williams Aerospace Coatings

## 2007 TRAINING INFORMATION

***CUSTOMER SERVICE AND TRAINING CENTER***

***415 East Commerce St.***

***Andover, Kansas 67002 U.S.A.***

***(316) 733-7576 (888) 888-5593***

***[www.swaerospace.com](http://www.swaerospace.com)***

***Schedule your paint technicians and paint supervisory staff to attend our technical products training classes, or schedule a refresher course to update your personnel with new product introductions and advanced application efficiency methods.***

## ***3-Day Class Itinerary:***

- ***Introductions & Facility Tour*** – Customer Service / Training Center
  - ***Surface Preparation*** – Stripped & De-Painted Aircraft / OEM New.
  - ***Primer Systems*** – Corrosion Protective Primers / Sanding Surfacer.
  - ***Topcoat Products*** – Jet Glo, Jet Glo Express, Acry Glo, Jet Flex.
- 

## ***Training Agenda***

### ***Surface Pretreatment:***

The key to a durable paint system is the surface preparation prior to corrosion primer application. The Preparation / Pretreatment module focuses on proper pre-prime process methods, including the importance of substrate prep after the de-painting process.

### ***Primer Systems:***

Corrosion protective primers and Sanding/Surfacer presentations focus on Conventional and High Solids epoxy primers to meet customer requirements. Classroom product data reviews, correct admixing and reduction, and Spray Booth Application of training panels.

### ***Topcoats: Jet Glo-570, Jet Glo Express-840, Acry Glo-571, Acry Glo-830 HS***

The urethane topcoat module details S-W products for topcoat finish and Design feature stripes for General Aviation aircraft, and Helicopter/Rotorcraft. Detailed product data technical reviews of the performance properties of each coating, proper admixing and reduction procedures, recommended application techniques with extensive hands-on Spray Booth application.

### ***Training Books:***

Each attendee will receive complete Aerospace Products training book, containing in-depth Technical Information data and various pertinent and informative materials. A book is supplied to each attendee for class use and to keep for future reference, and sharing with their co-workers.

### ***Health & Safety:***

For Spray Booth participation we supply new 3M #7500 Respirators, with dual organic vapor cartridges. Disposable lab coats, gloves and Safety glasses are also available. Dress is casual but no shorts, sandals or cutout T-Shirts, due to Health and Safety concerns
