**NEW VIDEO FROM SHERWIN-WILLIAMS AEROSPACE COATINGS
HELPS AIRCRAFT PAINTERS PRODUCE THEIR BEST WORK**

Short Presentation Outlines Key Steps for Achieving a Durable, Aesthetic Protective Finish

Andover, Kan. – A new 15-minute video, *Aerospace Coatings: Proper Application Techniques*, produced by Sherwin-Williams Aerospace Coatings, offers painters detailed directions and tips for preparing and applying aircraft coating systems to better ensure a high-quality, lasting outcome.

Sherwin-Williams uses this video, shot at the Gulfstream Aerospace facility in Dallas, in its own training seminars and is now making it available to its customers.

“Aircraft painters know how important it is to give their customers the best possible paint scheme,” said Julie Voisin, Sherwin-Williams Aerospace Marketing Manager. “A paint job that’s beautiful and durable makes an exceptionally positive statement about not only the aircraft, but the shop that applies the coatings as well.”

By taking aircraft painting crews through surface preparation, primer application, surfacer/primer application, topcoat application, safety and various equipment and facility requirements, the training video provides a thorough overview of the painting process, from start to finish.

- MORE -

“We wanted to give aircraft paint facilities access to the best possible prep and paint techniques for Sherwin-Williams Aerospace products,” said Richard Giles, technical services and training manager at Sherwin-Williams. “This video goes into great detail and provides paint shops with a fantastic training and refresher course tool.”

For more information on this video training program or other Sherwin-Williams Aerospace coatings, call 1-800-888-5593 or visit www.swaerospace.com.

###

The Sherwin-Williams Company, founded in 1866, is one of the world's leading companies in the manufacture, distribution and sale of coatings and related products to professional, industrial, commercial and retail customers. Sherwin-Williams Aerospace Coatings is a business unit of Sherwin-Williams Automotive Finishes Corp., a wholly owned subsidiary of The Sherwin-Williams Company. Sherwin-Williams Aerospace Coatings manufactures and distributes a complete line of advanced technology paint and coating systems for a variety of commercial, general and military aircraft.
